District

SUPERINTENDENT SEARCH

Search to be completed by
Fruitvale ISD
Board of Trustees

Fruitvale ISD is an exemplary district located in Van Zandt County. Fruitvale is a 1A district with approximately 420 students in Head Start through 12th grade. It is located on Highway 80 half way between Dallas and Tyler.

In addition to the regular curriculum, Fruitvale Junior High/High School is a T-STEM Academy. We offer courses in robotics and engineering as well as dual credit courses for high school juniors and seniors. Through our dual credit program partnership with Trinity Valley Community College our seniors have the opportunity to graduate from high school with 30 college hours at no financial expense to the student. We also partner with UT Tyler and the Texas High School Project to provide services to our staff and students.

Fruitvale ISD offers many programs and services to our students including small class size, Head Start, and a full-day Pre-Kindergarten. FISD is a small but progressive school district. We are very proud of our technology and of our current emphasis on math and science. We have a 1:1 student-computer ratio in grades 4-12. All classrooms are equipped with projectors and document cameras. Many classrooms are also equipped with interactive whiteboards.
